Marke: NOX Cycles

Bestell-Nr.: 23_HEL-AM_01_23225

Looking for an electric all-mountain bike that gives you a natural-feeling ride? With an extra portion of power in your legs going uphill and the performance of a "normal" all-mountain bike going downhill? A bike that you can convert in a flash, allowing you to enjoy unlimited freedom for rides without a motor as well?

If your answer to these questions is YES, then we have a real all-rounder for you: the NOX HeLIUM 5.9 All-MOUNTAIN. A modern and attractive e-MTB that can accompany you on all your rides, be it your regular tour or an alpine crossing.
