Marke: NOX Cycles

Bestell-Nr.: 23_EP-AM_01_23300

As a symbiosis between e-bike and bio-bike, the EPIUM All-Mountain 5.9 catapults you into other spheres. You'll get the power to ride higher and further while maintaining the natural riding feel we all love. It allows you to experience more than ever before. On technically demanding climbs and fast downhill passages, on a ride after work or on extended adventure tours.

The centerpiece is the 2.7 kg light full-carbon monocoque frame with modern geometry and integrated suspension. A combination that creates unique agility. With the Flex Linkage System you can adapt the geometry of your bike perfectly to your needs. Powered by the brand-new FAZUA Ride 60 you are driven by 60 Nm torque and 420 Wh battery reach. 160 mm suspension travel at the front and rear and 29" wheels ensure high traction and maximum driving comfort.

EPIUM All-Mountain 5.9: Light, quiet, powerful and progressive - get ready for an e-mtb experience that goes beyond body and mind.

Winner of the [German Design Award!](#)

Jury statement: "An excellent design that reflects the demand for innovation and uncompromising quality down to the smallest detail."
